

# COMMUNITY DONATIONS

One of the Co-op Principles that we live by is “Concern for Community”. At Just Us! we have always supported local community organizations, with a focus on sustainable development, when we can. We are all ultimately dependent on our larger community and the natural environment. By supporting local organizations we help strengthen our community.

This month, we supported the following organizations. All of them are enriching our community and many are reaching out beyond our local area to help our global community.

Organization	Supporting
Symphony Nova Scotia	Community support—Arts
Home Hardware Ladies Night	Community support
